School Description

San Dieguito High School Academy is a learning community which nurtures the individual, promotes academic rigor, provides varied opportunities for success, values excellence, and celebrates creative expression. Principal's Message: San Dieguito H.S. Academy (SDA) is a school of choice for students in the San Dieguito Union High School District. We offer our students a challenging and relevant curriculum that is delivered by a caring staff, adult-student connections (because of our homeroom), and a flexible (4x4) schedule. Students have access to all courses, including Advanced Placement (AP), honors, and college prep, as well as a wide variety of electives. SDA received the California Distinguished School Award in the spring of 2010 and a six-year term of accreditation from the Western Association of Schools and Colleges in the spring of 2012.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school at 760-753-1121 or the district office.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the Basic State Priority (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2015-16)

We choose our textbooks from lists that have already been approved by state education officials. For a list of some of the textbooks we use at our school, see the Data Almanac that accompanies this report. We have also reported additional facts about our textbooks called for by the Williams legislation of 2004. This online report shows whether we had a textbook for each student in each core course during the 2013–2014 school year and whether those textbooks covered the California Content Standards.

School Facility Conditions and Planned Improvements (Most Recent Year)

Our older buildings range from 30 to 68 years old, and most are showing their age. We have remodeled school offices, some classrooms, and recently completed construction of a new library, biotech lab, and TV studio/ classroom. We built new student rest rooms in the gym area. Our staff and student parking areas have been upgraded and expanded. We have refurbished student bathrooms and walkways, and we improved the infrastructure to allow us to accommodate more advanced technology. We completed a new state-of-the-art visual and performing arts center and related classroom facilities.

More facts about the condition of our school buildings are available in an online supplement to this report called for by the Williams legislation of 2004. What you will find is an assessment of more than a dozen aspects of our buildings: their structural integrity, electrical systems, heating and ventilation systems, and more. The important purpose of this assessment is to determine if our buildings and grounds are safe and in good repair. If anything needs to be repaired, this assessment identifies it and targets a date by which we commit to make those repairs. The guidelines for this assessment were written by the Office of Public School Construction (OPSC) and were brought about by the Williams legislation. You can look at the six-page Facilities Inspection Tool used for the assessment on the Web site of the OPSC.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP], Science California Standards Tests); and
- The percentage of pupils who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the Parental Involvement State Priority (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

Opportunities for Parental Involvement

We work collaboratively with parents and encourage them to participate as active partners in their children's academic and extracurricular school experiences. We have more than 450 parent volunteers, and more than a third of our students' families have joined our foundation. Parents are also highly involved in our Music Council, School Site Council (SSC), Athletic Council, Student Support Council, Theater Council, and Academic Council. Our Spanish-speaking parents meet monthly with the principal to discuss school- and student-related issues. Our school Web site provides an abundance of information on how parents can be involved in their children's education. Parents are invited to attend monthly open forums with the principal, entitled First Fridays. We inform parents via weekly emails, all-call alerts, weekly bulletin, and parent newsletter to keep them updated on school activities and opportunities for their involvement.

State Priority: School Climate

The SARC provides the following information relevant to the School Climate State Priority (Priority 6):

- Pupil suspension rates, pupil expulsion rates; and other local measures on the sense of safety.

School Safety Plan

The staff monitors parking lots, hallways, and the lunch area before and after school and during lunch and passing periods. All visitors must check in at the office and wear a visitor's pass while on school grounds. Our campus supervisor monitors our campus and parking lots. We conduct monthly fire, lockdown, and earthquake drills, and we hold monthly safety meetings with parent, student, and staff representatives. In a working partnership with the sheriff's department, parents and students take part in a program entitled Start Smart, designed to educate new drivers. Our school safety plan is updated yearly and approved by the School Site Council.

Professional Development provided for Teachers

Our teachers collaborate frequently in department, course-alike, and faculty meetings. We also provide monthly late-start days throughout the school year, which provides the staff with additional collaboration time and the opportunity to meet in professional learning communities. Our weekly hour lunches are used for staff and department meetings. During these days, staff members have the opportunity to discuss instruction, assessments, curricular issues, and student support.

Career Technical Education Programs

Our counselors help students prepare for a variety of occupations. Several programs prepare students to enter the workforce, including our Technology Wheel for ninth graders, job shadowing, an internship program for eleventh and twelfth graders, and a schoolwide Speaker's Bureau to connect careers to high school courses. As part of our school-to-work technology program, students learn about architecture, business management and ownership, computer graphics, wood technology, manufacturing, photographic imaging, automotive repair, video and film production, and careers in the healthcare industry. Job shadowing, apprenticeships, and internships allow students to explore professions, learn job skills, and gain work experience. We are also in the process of developing and implementing Career Pathway strands within our curriculum, which will allow students to fulfill college preparatory curriculum while gaining career-related skills, experiences, and knowledge in areas such as biotechnology, arts, media, and entertainment.

Our high school offers courses intended to help students prepare for the world of work. These career technical education (CTE) courses, formerly known as vocational education, are open to all students. The accompanying table shows the percentage of our students who enrolled in a CTE course at any time during the school year. We enrolled 1,057 students in career technical education courses.

San Dieguito Academy boasts a Career Pathways committee that promotes career awareness and development of workplace skills. We have developed an extensive Speaker's Bureau, connecting careers to individual courses. Each semester a group of teachers visits a worksite to see first-hand the world of work that students are being prepared for, including business in information technology, healthcare, and environmental management. Students participate in a variety of internships, including paid internships in biotechnology and healthcare. You can find information about our school's CTE courses and advisors in the Data Almanac at the end of this School Accountability Report Card. Information about career technical education policy is available on the CDE Web site at cde.ca.gov.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
