

CONTRACTS

All contracts between the district and outside agencies shall conform to standards required by law and shall be prepared under the direction of the Superintendent or designee. The power to contract is delegated to the Superintendent, Assistant Superintendent/Business Services or the Director of Purchasing and Warehouse Services; provided, however, that no contract made pursuant to such delegation shall be valid or constitute an enforceable obligation against the district unless and until the same shall have been approved or ratified by the Board.

All contracts, where appropriate, shall be submitted to the legal advisor of the district for review and approval.

The district shall not enter into any contract with a person, agency, or organization if it has knowledge that such person, agency or organization discriminates on the basis of race, color, creed, sex, religion, ancestry, national origin, age or non-job-related handicap or disability, either in employment practices or in the provision of benefits of services to students or employees.

CONTRACTS FOR EXCLUSIVE SALE OR ADVERTISING OF CARBONATED BEVERAGES

The Board has determined that it is in the best interests of the district students for the district to enter into a contract granting exclusive advertising or exclusive sale of carbonated beverages throughout the district to a person, business or corporation.

Prior to entering into the contract, the Board shall ensure that the district has sufficient internal controls in place to protect the integrity of public funds and to ensure that funds raised as a result of this contract benefit public education.

The Superintendent or designee shall develop the district's internal control procedures to protect the integrity of public funds. Such internal controls may include, but not limited to, the following:

1. Control procedures that produce accurate and reliable financial statements, and at the same time, safeguard the assets, financial resources and integrity of every employee responsible for handling money or property. Control systems shall be systematically evaluated and revised to keep pace with the changing responsibilities of management.
2. Procedures to ensure that district personnel do not handle cash or product at the school site. The contract shall specify that the vendor stock the machines and shall provide cash accounting, along with a check, for district proceeds directly to the district office.

In addition, the contract may specify whether contractor logos are permitted on district facilities, including but not limited to, scoreboards and other equipment. If such logos are permitted, the contract shall present the equipment to the Board as a gift. The gift may be accepted by the Board in accordance with Board policy and administrative regulations.

To ensure that funds raised by the contract benefit district schools and students:

1. The Superintendent or designee may form a committee consisting of parents/guardians, students, staff and interested community members to make recommendations regarding the contract, including recommendations as to how the funds will be spent in a manner that benefits public education.

2. Prior to approving the contract, the Board shall designate, at a public meeting, the specific programs and activities which will be funded by the proceeds of the contract and how the contract reflects the district's vision and goals.
3. The Superintendent or designee shall notify parents/guardians and students about the parameters of the contract and how funds raised by the contract will be used.
4. The contract shall specify that the contractor report, on a quarterly basis, to the Superintendent or designee the number of beverages, including carbonated, sold within the district and the amount of money raised by the sales. The Superintendent or designee shall report these amounts to the Board on a quarterly basis.
5. The Superintendent or designee shall ensure that the contract does not limit the ability of student and parent organizations to plan and operate fund-raising activities.

The Superintendent or designee shall ensure that students are offered a variety of alternative non-carbonated beverages, such as milk and juice, to drink while at school or at a school activity.

The contract shall be entered into on a competitive bid basis pursuant to Public Contract Code 20111 or through the issuance of a Request for Proposal.

CONTRACTS FOR ELECTRONIC PRODUCTS OR SERVICES

Prior to entering into a contract for electronic products or services that require the dissemination of advertising to students, the Board shall:

1. Enter into the contract at a noticed, public hearing of the Board.
2. Make a finding that the electronic product or service is or would be an integral component of the education of students.
3. Make a finding that the district cannot afford to provide the electronic product or service unless it contracts to permit dissemination of advertising to students.
4. Provide written notice to parents/guardians that the advertising will be used in the classroom or other learning center. This notice shall be part of the district's normal, ongoing communication to parents/guardians.
5. Offer parents/guardians the opportunity to request in writing that their child not be exposed to the program that contains the advertising. Any request shall be honored for the school year in which it is submitted, or longer if specified, but may be withdrawn by the parents/guardians at any time.
