

ENVIRONMENTAL AWARENESS

District and site environmental awareness plans shall address management of natural resources and shall encourage staff and students to participate in those plans by:

1. Cooperating in the District's conservation efforts.
2. Offering Life and Physical Science courses at the middle school level.
3. Offering Earth & Space Science, Biology, Chemistry, Environmental Science, AP Biology, AP Chemistry, and AP Environmental Science courses at the high school level.
4. Posting notices about environmental/community awareness events, such as beach clean-up days.
5. Providing opportunities to observe alternative energy in use at district facilities.
