

**FACILITIES**

The Board of Trustees recognizes that one of its major responsibilities is to provide healthful, safe and adequate facilities that enhance the instructional program. The Board shall endeavor to make the provision of adequate school facilities a priority in the district. Because the schools serve as a focal point for the community, the Board shall also strive to ensure that district facilities fit harmoniously and attractively into their neighborhoods and have flexibility of design to meet future educational and community needs.

In fitting with the Board's environmental policies, architects and engineers will be required to consider the best management practices for new construction or renovations of facilities, as described in the following:

1. County of San Diego Urban Stormwater Mitigation Plan for Land Development and Public Improvement Projects (SUSMP).
2. County of San Diego Low Impact Development Handbook.
