

# **SATURDAY SUPPORT SCHOOL TIPS**

**Congratulations on choosing to attend Saturday Support School. This proves that you really want to improve as a student. The purpose of this program is to offer you a quiet place to study or do homework. We will provide teachers that can answer questions as they come up for you.**

## **Here are some tips for getting the most out of Saturday Support School:**

- Come prepared. Bring your books and something to work on.
- Check with your teacher before time. Ask if there is other work you are missing. Will they allow you to make it up?
- Know if your teacher posts your grades and missing assignments on his/her web page. If so, be sure to bring your pin number. You can then check for missing assignments during Saturday Support School.
- Think about your questions ahead of time. Where are you having difficulty? What do you have trouble with? What do you still need to learn?
- Bring your agenda. This is a great time to get organized.
- Have a good attitude. This is meant to help you. We are proud of your decision to join us.
