San Dieguito Union High School District

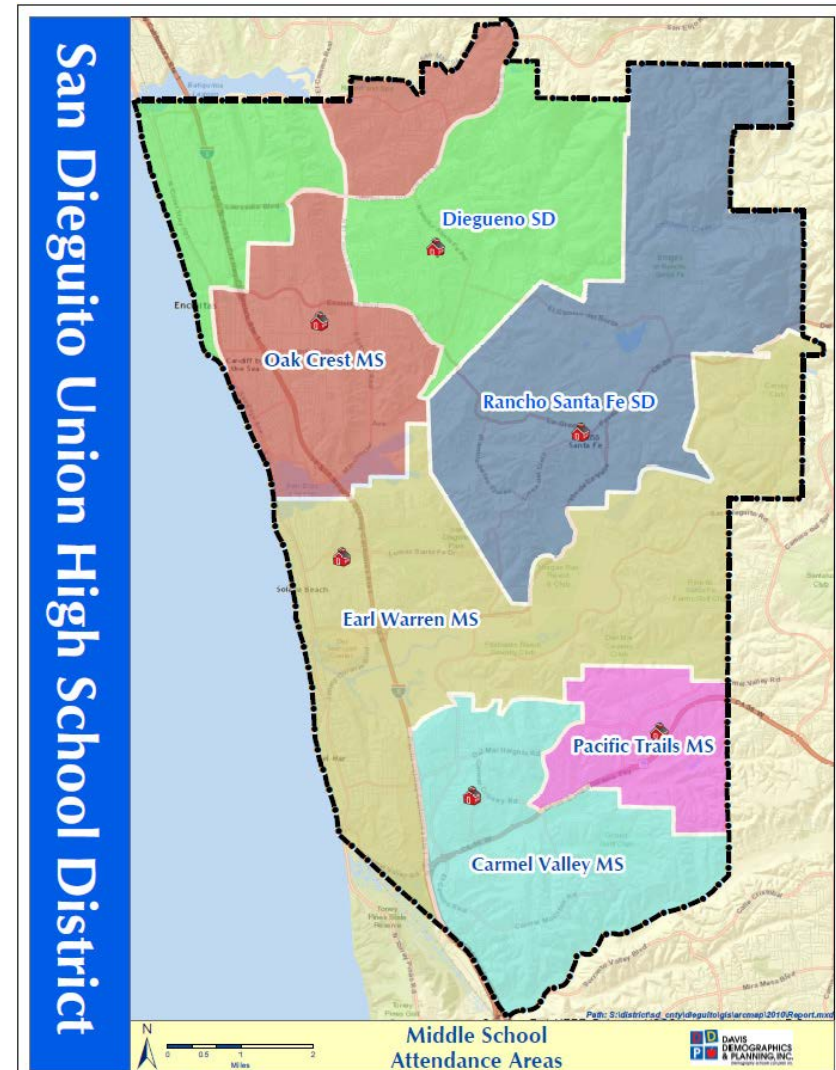

Earl Warren Middle School

Friends Night Out

April 9, 2015

District Information

- North County Coastal
 - Carmel Valley/Del Mar to South Carlsbad
 - 85 Square Miles
- Ten Schools
 - 4 High Schools
 - 4 Middle Schools (soon to be five)
 - Alternative & Continuation High Schools
 - Adult Education
- Grade 7-12 Enrollment – 12,538
- Last School Bond – 1972, \$8M
- Prop AA
 - Passed November 2012
 - \$449 Million
 - First Issue April 2013 \$160 M
 - Second Issue April 2015 \$117 M

District Task Force - 2008

Vision

The vision for the facilities of San Dieguito Union High School District is focused on creating learning environments that embrace variety in teaching and learning styles, are responsive to our rapidly changing world, and will encourage students to be good stewards and citizens of a greater community.

The three areas of focus are:

- Flexible, Adaptable and Technology Rich Facilities
- Sustainable, High Performance Environments for Learning
- Community Focused Campuses

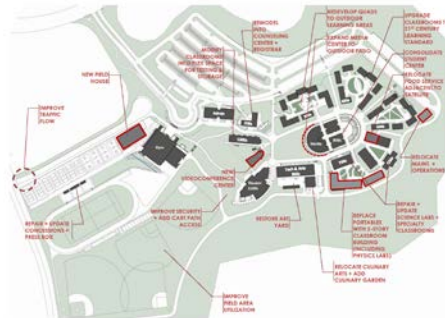

Major Capital Program Components

New School Sites

- To accommodate growth in population and programs

Proposed Campus Improvements

Site Plan - Proposed Campus Improvements

La Costa Canyon High School Master Plan

School Site Improvements

For Must Do Issues:

- FLS
 - Access
 - Structure
- and

Should Do Issues:

- 21st Century Learning Environments,
- Parity
- Sustainability

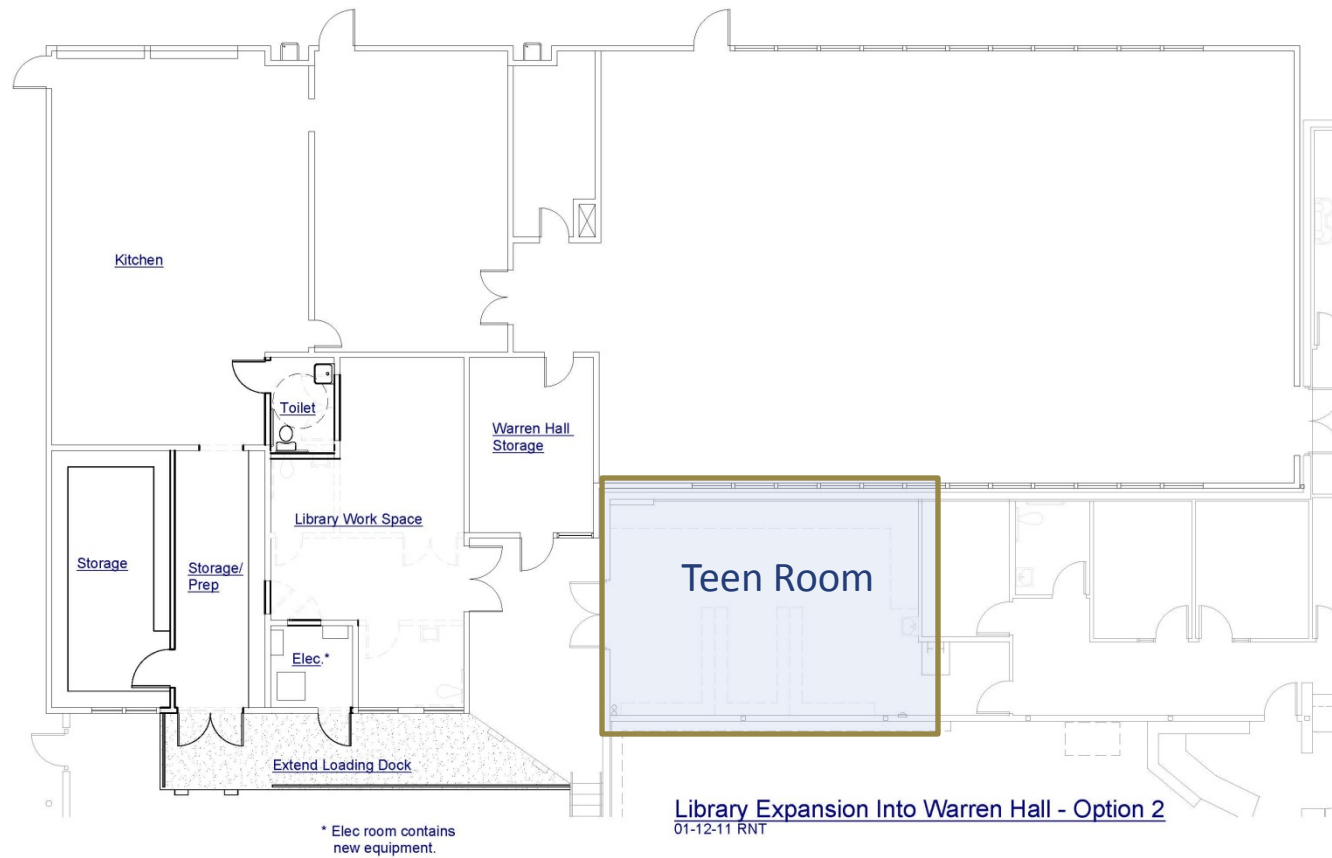

Technology Infrastructure

- Power
- Bandwidth
- Wireless
- BYOD

Friends of the Library - 2010

Space for teens and storage

21st Century Learning Environments

Flexible, adaptable facilities encourage teaching and learning that is responsive to the needs of the user. Small learning communities, interactive public spaces and “anytime, anywhere” access to technology will expand the boundaries of the traditional classroom setting.

2013-14 Planning

Interim Campus

- 31 classrooms
- including art, music, and science
- Multi-purpose room
- Student Services
- Administration
- PE Facilities
- Food Service
- Self Sufficient Parking Lot
- Secured Fencing
- Controlled Access
- Walkway up from street

Campus Schedule

Server Room Building – Complete June 2015

Interim Housing – Start April 2015; Complete August 2015

Campus Construction – Start July 2015; Complete May 2017

SITE PLAN - LEVEL 1

EARL WARREN MIDDLE SCHOOL REPLACEMENT OCTOBER 7, 2014

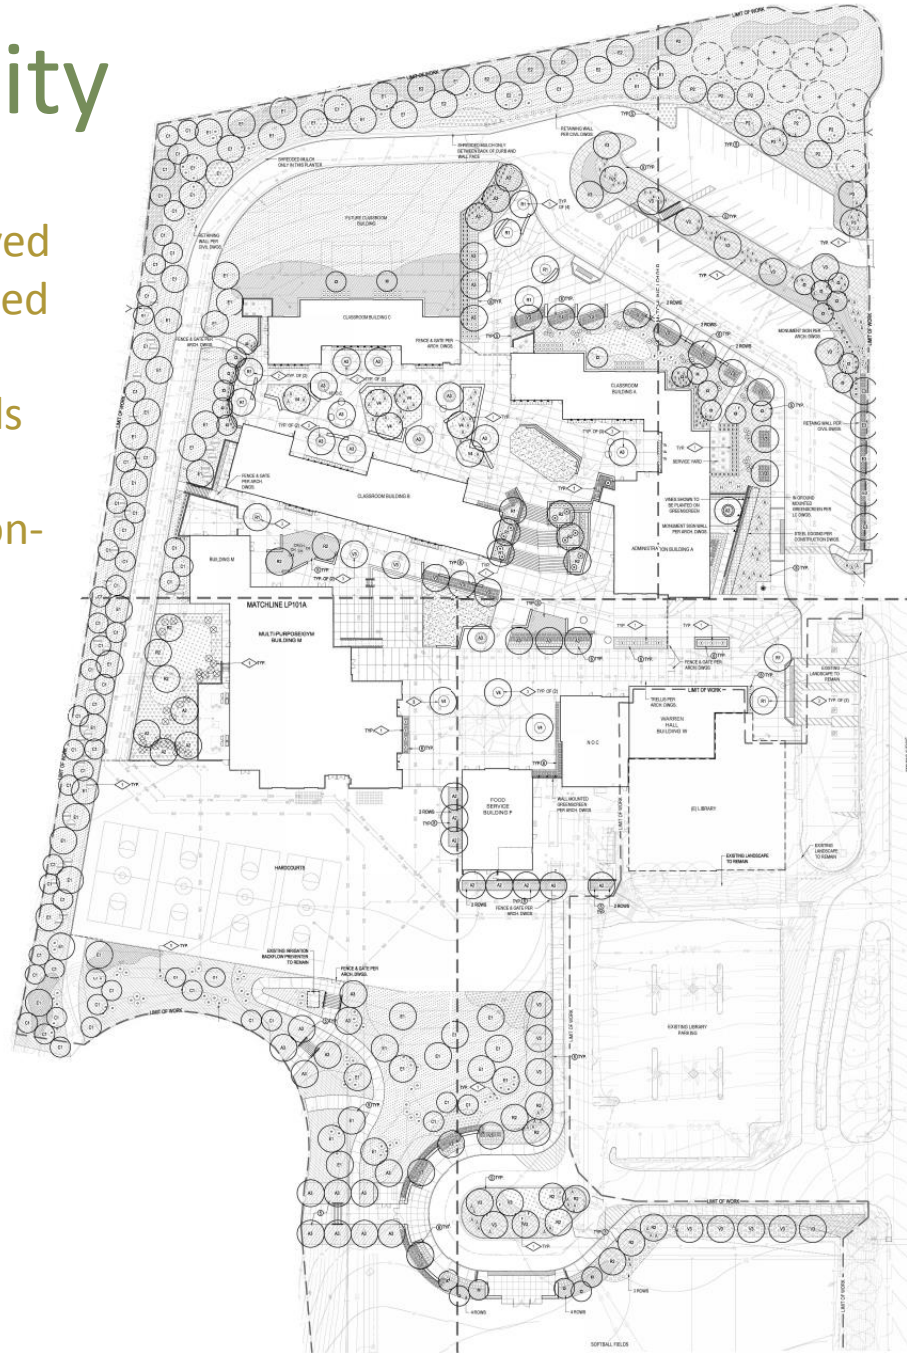

SITE PLAN - LEVEL 2

EARL WARREN MIDDLE SCHOOL REPLACEMENT OCTOBER 7, 2014

LIONAKIS

Sustainability

- 82 trees to be removed
- 289 trees to be planted
- Reducing Heat Islands
- California Native/ Non-Invasive plantings
- Reclaimed Water

Green

A - Marina
Strawberry Tree

R - *Platanus racemosa* –
California sycamore

Quercus virginiana –
Southern Live Oak

Green

C - *Pinus canariensis*

E - *Pinus eldarica*

P - *Pinus pinea*

Sustainable Design

Designed to Collaborative for High Performance Schools (CHPS) standards

- **Building Orientation** – The building orientation of the classrooms are intended to maximize daylighting opportunities and reduce solar heat gain.
- **Building Envelope** – Highly efficient wall construction and glazing systems will be used as an effective way to reduce energy consumption while providing long lasting finishes.
- **Daylighting** – Classroom daylighting will be provided and properly controlled to reduce energy consumption as well as improve the interior environment for the students.
- **User Control/Operations** – Provide the building users with some level of control of their environment (i.e. thermostats, lighting control and window coverings) and help them understand how controlling the systems impacts their environment and energy consumption.
- **High Efficient HVAC** – The greater the efficiency of the HVAC system provides more savings to the District for operations and instruction.

Sustainable Design

- **Renewable Energy** – The building orientation and roof structures are designed to receive photovoltaic panels.
- **Indoor Environmental Quality** – Classroom acoustics and materials will reflect the standards established by CHPS (Collaborative for High Performance Schools).
- **Site Design** – Storm water runoff will fulfill the requirements established by the State and local agencies (100 year storm design); currently we are studying if this can also be a teaching opportunity for the students.
- **Water Conservation** – High efficiency plumbing fixtures will be used throughout along with water use reducing measures for the landscape design, such as weather based irrigation controllers.
- **Construction** – Specified goals for the contractor related to construction waste management and indoor environmental air quality at the conclusion of construction, as well as participation in the City of Solana Beach's beach sand replenishment program (SCOUP).
