Dear SDUHSD Community,

I am writing with the hope that you and your loved ones are safe during this unprecedented and challenging time. This is a defining moment as San Diego County, the State of California, the nation, and the global community take protective measures to safeguard our collective health. I want to share with you some important information and details as we continue to support your student’s education.

San Dieguito Union High School District (SDUHSD) will continue working with all five feeder elementary school districts through the remainder of the school year and over the summer in regards to Math Placement for the 2020-2021 school year. Please reference the following information below.

**Mathematics Diagnostic Testing Project (MDTP)**

The Mathematics Diagnostic Testing Project (MDTP) is a Grade 7 Mathematics Readiness Test. This online math readiness assessment is usually administered annually to sixth-grade students at the elementary schools and was scheduled for March 16 - April 24 this year. Unfortunately, due to school closures, SDUHSD will not be administering the MDTP as planned. We will be working with elementary feeder schools, as well as middle school counseling teams to ensure that students and parents are informed about academic options for the 2020-2021 school year, including possible optional opportunities during the summer.

**Integrated Math B Honors Readiness Test (IMBHRT)**

The SDUHSD Integrated Math B Honors Readiness Test (IMBHRT) is an optional test for 6th-grade students. It is designed to measure a student's readiness to take 8th-grade level Integrated Math B Honors as a 7th grader. This assessment is challenging and designed for students already on an accelerated math pathway. Any student who wishes to enroll in Integrated Math B Honors in 7th grade must take the SDUHSD IMBHRT and score 70% or higher. If your child is planning to take the IMBHRT, you will need to complete an online registration form, which will be posted as soon as we have additional guidance from the California Department of Education regarding the facilitation of on-campus activities.

Thank you, again, for the actions you are each taking to support the well-being of all.

Bryan Marcus
Associate Superintendent
Educational Services
