

Welcome to the San Dieguito Union High School District (SDUHSD).

Over the next few months, SDUHSD will be working with our feeder elementary school districts to administer the Mathematics Diagnostic Testing Project (MDTP) assessment. Please reference the following information below:

### Mathematics Diagnostic Testing Project (MDTP)

The online Mathematics Diagnostic Testing Project (MDTP) is an assessment of preparedness for 7th-grade mathematics. This online math readiness assessment will be administered at your child's elementary school. **Please check with your current 6th-grade teacher for specific testing dates.** The results of the MDTP provide information on next course enrollment options for students entering 7th-grade.

### **For New SDUHSD 8th Grade Students:**

If your student will be entering 8th grade for the 2023-2024 school year, we request that you provide their transcript from 7th-grade showing the math class they completed. The math diagnostic test for incoming 8th-grader students is optional.

### Integrated Math B Honors Readiness Test (IMBHRT)

The SDUHSD Integrated Math B Honors Readiness Test (IMBHRT) is an optional test for 6th-grade students. It is designed to measure a student's readiness to take 8th-grade level Integrated Math B Honors as a 7th-grade student. This assessment is challenging and designed for students already on an accelerated math pathway. Any student who wishes to enroll in Integrated Math B Honors in 7th-grade must take the SDUHSD IMBHRT and score a 70% or higher. If your child is planning to take the IMBHRT, you will need to complete an online registration form, which will be posted on the SDUHSD math website, linked [here](#), in March.
