

# San Dieguito Union High School District

## Migrant Education Program

AR 6175

### Instruction

#### Eligibility

Students age 3 to 21 years shall be eligible for the district's migrant education program if they, their parents/guardians, or their spouses are migratory agricultural workers or fishers who, in the preceding 36 months, moved into the district due to economic necessity and engaged in new temporary or seasonal employment or personal subsistence in agriculture or fishing. If such employment was not secured soon after the move, students may be considered migrant students if they, their parents/guardians, or their spouses actively sought such new employment and have a recent history of moves for temporary or seasonal agricultural or fishing employment.

A student who ceases to be a migrant student during a school term shall be eligible for services until the end of the term. If comparable services are not available through other programs, a student who is no longer migratory may continue to receive services for one additional school year. Students who were eligible for services in secondary school may continue to be served through credit accrual programs until graduation.

#### Enrollment

A migrant student shall be immediately enrolled in the district even if the student:

1. Has outstanding fees, fines, textbooks, or other items or monies due to the school last attended
2. Does not have clothing normally required by the school, such as school uniforms
3. Is unable to produce records normally required for enrollment, such as previous academic records, proof of residency, medical records, including, but not limited to, records or other proof of immunization history, or other documentation

If a migrant student experiences a change in residence, the student may remain enrolled in the school of origin for the duration of the student's status as a migrant student.

If a student's status as a migrant student changes during a school year, the Superintendent or designee shall allow the student to continue at the school of origin through the duration of that school year or, if the student is enrolled in high school, through graduation.

A migrant student who is transitioning between school grade levels shall be allowed to continue in the district of origin in the same attendance area to provide the student the benefit of matriculating with peers in accordance with the established feeder patterns of school districts. A migrant student who is transitioning to a middle school or high school designated for

matriculation in another school district shall be allowed to enroll in that school.

The Superintendent or designee shall inform a migrant student and the student's parent/guardian of the impact of remaining in the school of origin on the student's eligibility to receive migrant education services pursuant to Education Code 54440-54445.

The Superintendent or designee may, but is not required to, provide transportation to enable a migrant student to attend the school of origin, unless otherwise required by federal law.

#### Student Records

The Superintendent or designee shall maintain records documenting the eligibility of students enrolled in the district's migrant education program. However, the district shall not collect information or documents regarding the citizenship or immigration status of students or their family members for the purpose of determining eligibility for migrant education services.

The Superintendent or designee shall acquire education and health records from migrant students' previous school districts, as appropriate.

When a migrant student transfers to another district, the student's records shall be provided to the receiving district upon request at no cost in order to assist that district in meeting the needs of the student.

#### Program Components

The migrant education program shall include all of the following components:

1. A general needs assessment summarizing the needs of the population to be served
2. A comprehensive program to meet the educational, health, and related needs of participating students which supplements the district program and includes, but is not limited to:
  - a. Instructional services, including academic, remedial and compensatory, bilingual-crosscultural, and career technical instruction
  - b. Counseling and career education services
  - c. Other educational services that are not otherwise available in sufficient quantity or quality to eligible migrant students
  - d. The acquisition of instructional materials and equipment necessary to adequately provide the appropriate services
  - e. Other related services to meet the special needs of eligible migrant students to enable them to participate effectively in instructional services

- f. The coordination and teaming of existing resources serving migrant students, such as bilingual-crosscultural education, health screening, and compensatory education
3. Individual assessment of the educational and relevant health needs of each participating student, within 30 days of enrollment, including assessments concurrently provided pursuant to compensatory education, bilingual-crosscultural education, school improvement programs, and other programs serving the student
4. A brief individual learning plan listing the services to be provided to each student, which shall be given to the parent/guardian in writing or at a parent/guardian conference, annually and when the student moves to a new district
5. Staffing and staff development plans and practices to meet the needs of students and implement the program
6. Parent/guardian and community involvement as specified in Education Code 54444.2, including, but not necessarily limited to, the establishment of a parent/guardian advisory council to actively involve parents/guardians in planning, operating, and evaluating the district's migrant education program
  - a. The migrant education program shall provide for the same opportunities for parent/guardian involvement that are provided to parents/guardians for federal Title I programs.
7. Evaluations which include annual student progress and overall program effectiveness and quality control reports

Contingent upon funding, the district shall provide home-based and/or school-based family literacy services to migrant families to enhance literacy levels, parenting skills, and English language skills of parents/guardians.

#### Summer School

The district shall conduct summer school program(s) for eligible migrant students. The summer school program shall respond to the individual needs of participating students and shall build on and be consistent with the instructional programs offered to these students during the regular school year. Coursework shall be of the same level of difficulty in each subject as that provided to students enrolled in regular classes of instruction within the district in the preceding year.

Teachers in the summer school program shall have cultural training or background and understanding of the special needs of migrant students and possess the proper credential for the subjects and grade levels to which they are assigned.

The program shall comply with the following requirements for instructional time:

1. For grades 7-8, a minimum of 200 minutes per day, including recesses and passing time but excluding noon intermissions, for not less than 20 instructional days
2. For grades 7-12, a minimum of 240 minutes per day, including passing time but excluding noon intermissions, for not less than 30 instructional days

When district facilities that are suitable for the summer climate are available, the district shall make facilities available at cost to other agencies that request facilities for the operation of migrant summer school programs. When approved by the Superintendent of Public Instruction, the district may jointly offer facilities with a neighboring district to meet the needs of the migrant summer school program for the entire area.

#### Applicability of Graduation Requirements

To obtain a high school diploma, migrant students shall complete all courses required by Education Code 51225.3 and shall generally fulfill any additional graduation requirements prescribed by the Board.

However, when a migrant student who has completed the second year of high school transfers into the district or transfers between high schools within the district, the student shall be exempted from all district-adopted coursework and other district-established graduation requirements, unless the district makes a finding that the student is reasonably able to complete the additional requirements in time to graduate from high school by the end of the fourth year of high school. Within 30 calendar days of the transfer, the Superintendent or designee shall notify the student and the student's parent/guardian of the availability of the exemption and whether the student qualifies for it. If the Superintendent or designee fails to provide this notification, the student shall be eligible for the exemption once notified, even if the notification occurs after the student no longer meets the definition of a migrant student.

To determine whether a migrant student is in the third or fourth year of high school, the district shall use either the number of credits the student has earned as of the date of the transfer or the length of school enrollment, whichever qualifies the student for the exemption.

The Superintendent or designee shall notify any migrant student who is granted an exemption and the student's parent/guardian how any requirements that are waived will affect the student's ability to gain admission to a postsecondary educational institution and shall provide information about transfer opportunities available through the California Community Colleges.

The district shall not require or request a migrant student to transfer schools in order to qualify for an exemption, and no request for a transfer solely to qualify for an exemption shall be made by a migrant student or parent/guardian.

If a migrant student is exempted from local graduation requirements, the exemption shall continue to apply after the student no longer meets the definition of a migrant student if the student is still enrolled in school or transfers to another school or district.

Upon making a finding that a migrant student is reasonably able to complete district graduation requirements within a fifth year of high school, the Superintendent or designee shall:

1. Inform the student and parent/guardian of the student's option to remain in school for a fifth year to complete the district's graduation requirements and how that will affect the student's ability to gain admission to a postsecondary educational institution
2. Provide information to the student about transfer opportunities available through the California Community Colleges
3. Upon agreement with the student or parent/guardian, permit the student to stay in school for a fifth year to complete the district's graduation requirements

#### Parent Advisory Council

The parent advisory council shall be comprised of members who are knowledgeable of the needs of migrant students and shall be elected by the parents/guardians of students enrolled in the district's migrant education program. The composition of the council shall be determined by the parents/guardians at a general meeting to which all parents/guardians of participating students shall be invited. The parents/guardians shall be informed, in a language they understand, that they have the sole authority to decide on the composition of the council.

At least two-thirds of the advisory council shall consist of parents/guardians of migrant students.

All parent/guardian candidates for the council shall be nominated by parents/guardians. Nonparent candidates, such as teachers, administrators, other school personnel, or students, shall be nominated by the groups they represent. All other community candidates shall be nominated by the parents/guardians.

The parent/guardian advisory council shall meet at least six times during the year and shall:

1. Establish program goals, objectives, and priorities
2. Review annual needs assessments, program activities for each school, and individual learning plans
3. Advise on the selection, development, and reassignment of migrant education program staff
4. Participate actively in planning and negotiating program applications and service agreements
5. Perform all other responsibilities required under state and federal laws or regulations

The Superintendent or designee shall establish and implement a training program for advisory

council members to enable them to carry out their responsibilities. The training program shall be developed in consultation with the council and shall include appropriate training materials in a language understandable to each member.

The Superintendent or designee shall provide the council, without charge, a copy of all applicable state and federal migrant education statutes, rules, regulations, guidelines, audits, monitoring reports, and evaluations. Upon request, these materials also shall be provided without charge to each member of the council.

#### Notification and Complaints

Information regarding the educational rights of migrant students, as specified in Education Code 51225.1 and 51225.2, shall be included in the annual uniform complaint procedures notification distributed to students, parents/guardians, employees, and other interested parties pursuant to 5 CCR 4622.

Any complaint that the district has not complied with requirements regarding the education of migrant students, as specified in Education Code 51225.1 or 51225.2, may be filed in accordance with the district's procedures in AR 1312.3 - Uniform Complaint Procedures.
