

San Dieguito Union High School District

Alternative Credits Toward Graduation

BP 6146.11

Instruction

In order to meet individual student needs of all enrolled district students and encourage all students to complete their high school education, the Governing Board desires to provide flexibility in the completion of prescribed courses in accordance with law.

With the active involvement of parents/guardians, administrators, teachers, and students, the Board shall adopt alternative means for students to complete the prescribed course of study required for high school graduation. These alternative means shall be made available to students, parents/guardians, and the public.

Students may fulfill any course requirement for graduation through the following:

1. Enrolled in supervised work experience, internship or other outside school experience in accordance with Education Code 51760.3 and 5 CCR 1635
2. For credit toward the district's physical education requirement, participation in district interscholastic athletic programs carried on wholly or partially after regular school hours.
3. Career technical education classes offered in fully accredited high schools
4. Courses offered by regional occupational centers or programs
5. Independent study program coursework
6. Credit earned at a fully accredited postsecondary institution
7. Private instruction in accordance with 5 CCR 1631
8. For credit toward the district's elective requirement, approved world language studies successfully completed in a private school in accordance with 5 CCR 1632
9. At Sunset High School alternative education only, students may earn elective credit and "P" grade for scoring "Standard Met" or better on state-mandated testing as part of the California Assessment of Student Performance and Progress (CAASPP) program.

Upon receiving advance, written application, by the student and parent/guardian, the Superintendent or designee shall determine whether completion of the proposed alternative means would satisfy course requirements for graduation and what documentation shall be required, if any, to verify the student's successful completion. The Superintendent or designee shall make the final determination as to whether the student's completion of an alternative means is sufficient to satisfy the district's graduation requirements. If the alternate course will be completed at an institution outside of the district, the student and parent/guardian must complete the SDUHSD Off-Campus Course Permission Form in advance for

approval (See AR 6146.11 and E6146.11).

As appropriate, the Superintendent or designee shall determine the grade to be assigned to students for the completion of any of the above alternative means. When a grade is assigned by a private school, postsecondary institution, or other educational institution for completion of coursework, that same grade shall be awarded by the district provided that the Superintendent or designee has determined the alternative course to be substantially equivalent to a district course.
