

SCHOOL ACCOUNTABILITY REPORT CARD

The Governing Board views school accountability report cards as an excellent way to inform the community about conditions, needs and progress at each school and to help provide data by which parents/guardians can make meaningful comparisons between schools. In addition, the process of developing the report cards gives the school staff opportunities to review achievements, identify areas for improvement, enlist local support and establish a vision for the future.

The Superintendent or designee shall establish a process for the development of annual site report cards as required by law, including the identification of site level indicators, both qualitative descriptions and quantitative measurements, which will be used to assess each condition being evaluated.
